Brad Sassack, Principal

February 11, 2021

Hiller Elementary School

We have been notified of a COVID-19 case of an individual who attended Hiller Elementary School on February 8, 2021. The individual tested on February 10, as a precautionary measure, and was found to be positive. There was no one who was found to be in close contact (6 feet or less for 15 minutes or longer with or without a mask) to this individual. This communication is for your awareness and you do not have restrictions according to the Oakland County Health Department.

COVID-19 is a contagious viral illness that spreads in the air through coughing, sneezing, and talking. Recent information suggests COVID-19 is spread by people who are not showing symptoms. It may be possible that a person can get COVID-19 by touching a surface or object that has the virus on it, then touching their own mouth, nose, or possibly their eyes. Symptoms include fever, cough, shortness of breath or difficulty breathing, fatigue, muscle or body aches, headache, new loss of taste or smell, sore throat, congestion or runny nose, nausea or vomiting, and diarrhea.

For additional information regarding COVID-19, please visit the OCHD website at <https://www.oakgov.com/health>. If you have any questions, please feel free to contact me at 248-589-0406 or Greg Fuller at 248-589-1990.

Sincerely,

Brad Sassack, Principal
